

2021-22 Program Overview

ABOUT UW ADVANCE

Funded in 2001 with an NSF ADVANCE Institutional Transformation grant, UW ADVANCE is a campus and national resource for effective practices in academic leadership development, cultural and policy change, and the advancement of female faculty in STEM fields. Our objective is to create a diverse, thriving campus in which all faculty in science, technology, engineering and mathematics (STEM) receive the proper support, flexibility and recognition to achieve their maximum potential. The core UW units we serve are the College of Engineering; College of Arts & Sciences, Natural Science Division; and College of the Environment.

In 2019 UW had the highest percentage of female faculty representation in the top 50 Colleges of Engineering with 26.3% (2019 ASEE Engineering by the Numbers).
